Pavo.P., McSwight for the treatment of diseases or conditions
Method and reagent for the treatment of diseases or conditions
related to levels of vascular endothelial growth factor receptor
Patent: US 6346398-A 7333 12-FEB-2002;
Location/Qualifiers
                                                                                                                                                                                                                                                                                                                                   1 (bases 1 to 17)
